

YACHTING SIMPLIFIED

MGMT

ABOUT US

MGMT has been operating as a Superyacht agent in the UK since 2009. The company was started by our founder and ex-Superyacht Captain Mark Upton. Mark has over 26 years experience in the yachting industry including yacht management.

He put together the team at MGMT who will be looking after you during your visit. We come from a variety of backgrounds, predominantly Superyacht crew but also from corporate backgrounds including finance, hospitality and event management.

So, even before you arrive in the UK you know you are going to be looked after by a team who, not only knows Superyachts but will always go that step further to ensure perfection.

We look forward to seeing you soon.

PLANNING YOUR TRIP

This is our speciality!

From all the usual pre arrival services such as;

- Customs & Immigration
- Berths
- Visas
- Transport

To everything else you can possibly think of including day-workers, baby sitters, doctors and much more.

No request is too big or too small. Just ask and we will take care of it for you.

ITINERARIES

Almost every Superyacht we look after comes to the UK for guest trips. This is where our expertise and local knowledge comes in.

We liaise with the Captain and department heads to fully understand your owner and guest preferences. Then we create a trip that will truly put a smile on their faces.

We cover the whole of England and Scotland and will make sure your trip includes all the things your guests like to do, plus much more.

We love to put special experiences and events together for Superyachts and will come up with as many ideas as you let us.

FUEL

Always a requirement for visiting Superyachts.
In a lot of circumstances we are able to provide
duty free fuel. Don't forget to ask about this
before heading our way as we are often a lot
cheaper than main land Europe.

EU VAT CLEARANCE

Since BREXIT a lot of Superyachts leaving
Northern European shipyards now come to
the UK for EU VAT clearance. Historically
Superyachts did this in Norway but the UK is
now an easier and much more cost effective
alternative.

PROVISIONING

Another key and extremely important aspect of yachting. We source and deliver the highest quality, locally sourced produce wherever you are in the UK. We are proud to represent the UK and have spent a huge amount of time making sure what we deliver is the best. All the produce you have delivered on board is not only world class but also (as much as possible) British. We support local businesses and the local economies of the areas Superyachts cruise in the UK which means Yachts are always welcome everywhere they go.

TRANSPORT & SECURITY

When it comes to transport we do it all.

Superyachts generally don't require jets as most owners have their own. However, if needed we can charter jets. We also offer helicopters, tenders/ chase boat charters and even trains!

The most popular chauffeur vehicles are V Class and S Class Mercedes but we can cater to any requests so please ask.

Security is a regular request from close protection to simple additional deck watches at night.

Our transport services extend to crew too. From airport drop offs and collections to hire cars.

GUEST CONCIERGE & BESPOKE EVENTS

This is the exciting part of your trip! As part of your UK itinerary we include bookings of restaurants/ events/ experiences. Our team is very experienced in, not only booking your requests but also suggesting places, events and locations which may be of interest. Give us the freedom to be creative and we will put together some truly exceptional “money can’t buy” experiences.

HEALTH & WELFARE

Whether it is health and fitness or medical support we can provide;

- Personal trainers visiting the yacht
- Private Gym and coaching sessions
- Spa treatments on board or local to the yacht
- Hair and make up

MGMT are here to aid and assist in any capacity required when it comes to the health needs of guests and crew alike. We understand that illness can change plans in an instant and so we can arrange:

- Doctor consultations onboard. They can issue prescriptions & referrals
- COVID testing onboard (depending on where you are in the UK)
- Private Dr and hospital appointments
- Provide the latest UK information regarding Seafarer visa requirements

MARINE ENGINEERING

We work closely with some excellent mechanical and electrical engineering teams who can repair, manufacture or machine pretty much anything at short notice.

PARTS & SUPPLIES

Whether it is Deck, Engineering or Interior, MGMT can assist HOD's with whatever they need.

SHIPMENTS & DELIVERIES

Already know the vessel is heading to the UK but need to send items over ahead of time? No problem. We will take delivery of your packages and provide storage until your arrival or when the items are needed.

We will also take care of your customs clearance and ensure everything makes it to you with minimal fuss and expense.

PHOTOGRAPHY & DRONE FOOTAGE

Why not capture some amazing footage of the yacht passing through Tower Bridge. Or maybe you want to create a film of your entire UK trip. Our film team are always happy to discuss your needs and create something truly special for you.

HERE TO HELP

Whether it is a short stop for a crew change and fuel, or a full circumnavigation of the UK MGMT will help you make it a success.
